*Hej!*

*my name is Elaf Alzoubi, i'm 20 years old i live in sweden spc Uppsala. I lived in Sweden since 2017 and since then i started working on myself and getting better on what i love to do witch is a programming. It's the most lovely thing i can imagine to do in this life. First i started with A game developer when i was like 17 years old but it's was so tough for me at the beggning until i bacame a web developer 2019. I worked with back-end development and with database an also with git to work with a team in one project. Then i love to make web design and animation and 3d illustration.*

## EXPERIENCE

### UI/UX designer

*mars 2020 till now*

adobe xd

i do work on adobe xd first before i start coding the website to get the web design first before the real action happen.

### web development

*november 2019 till now*

Front-end and git

i have worked as a front-end developer freelancer to make some money.

## EDUCATION

### computer science

*i will start april 2022 till 2025*

master

i will start high school in April as a computer science.
